Repository Analysis Report

Repository: https://github.com/psf/requests

Generated: 31 October 2026, 12:59 UTC

1. Repository Overview

Metric	Value
Total Files	130
Total Folders	23
Total Code Issues	2
Total Dependencies	2

2. Programming Language Distribution

Language	Files	Percentage
Python	100	85%
Markdown	15	15%

3. Technology Ecosystem Analysis

Ecosystem	Source Files	Manifest Files
Python	100	pyproject.toml

4. Code Quality Analysis

Severity Metric	Count
Total Issues	2
High Severity	0
Medium Severity	1

Severity Metric	Count
Low Severity	1

Detected Issues

Issue	Severity	File	Line	Description
Possible unused import	Medium	sample.py	5	An imported module may not be used.
Debug print statement	Low	main.py	10	A print statement was detected.

5. Dependency Analysis

Dependency	Version	Manifest
requests	2.31.0	requirements.txt
urllib3	2.0.0	requirements.txt

6. Dependency Version Analysis

Package	Declared	Latest	Status
requests	2.31.0	2.32.0	Outdated

7. Security Vulnerability Analysis

Security Metric	Count
Total Dependencies	2
Checked Dependencies	2
Vulnerable Dependencies	0
No Known Vulnerabilities	2
Cannot Check	0
Check Failed	0

Package	Version	Status	Vulnerability Count
No data available	No data available	No data available	No data available

Disclaimer: This report is generated using automated static analysis and publicly available vulnerability information. Findings may require manual verification. The absence of detected issues does not guarantee that a repository is completely secure.
